

# Can you SPY what was ADDED ??

(These are visual perception games. Sharpening a kid's eye helps with reading/decoding skills.)

Start at the incomplete robot on the left. Try and see the one thing that was added to the next robot. Circle the thing that was added. Keep on going until you get to the complete robot on the right.

# Can you SPY what was taken away ??

One letter was **taken away** from each of the words below. See if you can find which letter was taken away. You don't have to know how to read the words. Just look carefully at the letters in each word.
