

GROUP GAME

The Laughing Game

Ages - Anyone can play

Number of people - At least 5, the more, the better.

Object - To make it to the end of the chain without anyone laughing.

How to Play

The first person lays down on his/her back. The next persons lays on his/her back, with their head on the stomach of the first person. The next person lays down with their head on the stomach of the second person. Continue until every one is laying down. The first person says "Ha" **once**. The second person says "Ha" **twice**. Continue down the chain until every one has gone. If you make it to the end without anyone laughing, you win. HOWEVER, if anyone starts laughing, then the group has to start all over again.

This sounds like a simple game, but it is difficult not to laugh when you head is resting on the stomach of somebody saying "Ha" many times. Try it!
