

# WORD FACTORY GAME

Directions: Cut out the letter cards on the next page.

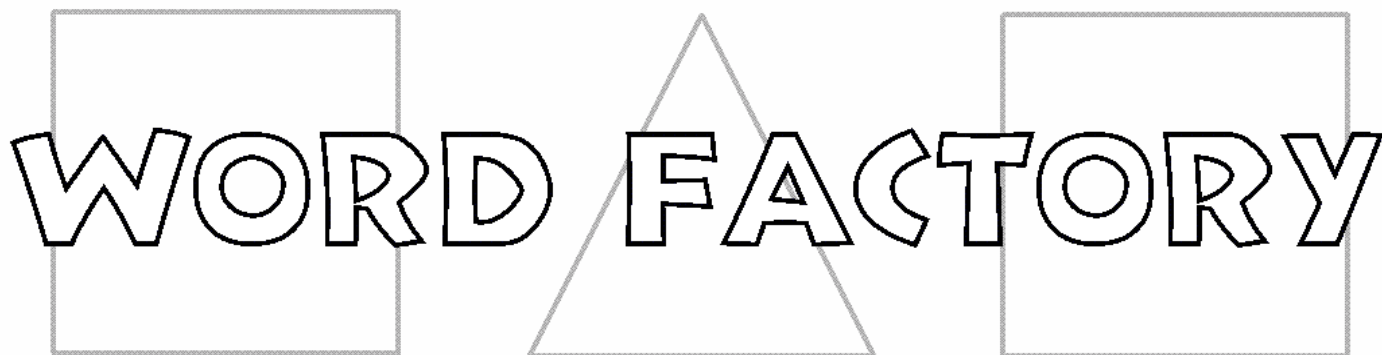

To play: Spread cards out face down. First player takes **TWO square cards and ONE triangle card.**

The player then tries to make a real word with these three cards. If player can make a real word, the player writes the word down in his/her Word Box. (Word Boxes are on the last page.)

Player returns cards to face down position, and it is the next player's turn. The next player tries to make a real word, but cannot make the same word already made by another player.

The first player to make 4 words wins.

There are 6 Word Factory games, each with a different combination of letters. Until you get very good, play each game separately and keep the letters from each game apart.
