Math Facts Kit

Math Facts Kit

These pages will help you memorize your

## THREE-ADDITION FACTS

When you think you know the facts all by heart, go to your teacher and do the Final Test on the last page.

If you get ALL right in 90 seconds, you will have

**BEAT the 3+ level**

You'll get a certificate!

## 3 STEPS TO MEMORIZE 3+ FACTS!

### 1. Flash the Math.

Reinforce your fact-memory  
with flash cards

### 2. Play the Math.

Review the facts with a game

### 3. Work the Math.

Master facts with timed drills

## IMPORTANT!

You need to Memorize addition facts.  
Try not to count on your fingers, or even  
in your head. Just try to  
memorize the  
facts, so you can  
know them quickly and  
automatically.

# Memorize!

# 1. Flash the Math.

## FLASH CARDS

Cut out these cards along the **solid lines**.  
Fold along the **dotted lines** to make two-sided  
flash cards.

 Color and decorate  
your flash cards.  
Take your time, make  
them really fancy.  
Think about the  
numbers as you color.  
That will help you  
memorize the facts.

7	$3+4=$	10	$7+3=$	13	$10+3=$
6	$3+3=$	6	$9+3=$	12	$6+3=$
5	$3+2=$	8	$5+3=$	11	$8+3=$

Fold down the center as shown. Crease the paper very well. Turn the paper over and bend the same crease in the opposite direction.

After the center line has been creased in both directions, fold the paper in half. Then cut on the solid line.

Fold as shown. Crease well. Turn the paper over and crease in the opposite direction, as well. Make sharp creases in both directions.

# feed me

Hold your Flash-card pack answer-sides down. If you get the problem on the first card right, feed it to the **Math Monster**. If you get it wrong, put it back in the bottom of the pack. Repeat with the next card. Keep on feeding the Monster with correct answers until you feed it all the Flash-cards.

Push each triangle shape into the inside as shown.

Open paper and the monster will now have a mouth. **Caution:** The monster will be very hungry.

# 2. Play the Math.

## Hangman -- Play with a friend.

On a separate sheet write a 3 + math fact. Have a friend guess the numbers you wrote down. Take turns.

$$\underline{\quad} + \underline{3} = \underline{\quad} \underline{\quad}$$

# X-Ray Vision

Fold this sheet neatly and evenly in half, with the printed side on the outside. Solve as many of the problems as you can in **90 seconds**. When you are done, hold the folded paper - problem side facing you - up to the light. You will see the correct answers through the paper. **Check your answers!** If you have trouble seeing through the paper, press the two halves of the paper closer together.
