

1. Flash the Math.

FLASH CARDS

Cut out these cards along the **solid lines**.
Fold along the **dotted lines** to make two-sided
flash cards.

 Color and decorate
your flash cards.
Take your time, make
them really fancy.
Think about the
numbers as you color.
That will help you
memorize the facts.

20	$5 \times 4 =$	35	$5 \times 7 =$	50	$5 \times 10 =$
15	$5 \times 3 =$	30	$5 \times 6 =$	45	$5 \times 9 =$
10	$5 \times 2 =$	25	$5 \times 5 =$	40	$5 \times 8 =$

a. Play the Math.

PARKING SPOT

GAME (a flashcard game)

Imagine your flash cards are cars. Each card has its assigned parking space. The parking spaces are the numbered boxes on the next pages.

Place your flash cards answer-side down. Without looking at the answer-side, park each card in the spot with the number that you think matches the answer to that flash card.

After you fill in all the parking spots on a page, check if you got the cars in the right spot.

Remove any cards you got wrong and try again. When you get the cards all parked in the right places, go to the next page (parking lot) and play some more.

PARKING SPOTS

15

(? x 5=15)

25

(? x 5=25)

50

(? x 5=50)

10

(? x 5=10)

35

(? x 5=35)

15

(? x 5=15)

PARKING SPOTS

5 (? x 5=5)	20 (? x 5=20)	30 (? x 5=30)
-----------------------	-------------------------	-------------------------

PARKING SPOTS

You can't park 5x cards here.
Park some of your 2x, 3x, or 4x flash cards.

16 (? x 4=16)	8 (? x 2=8)	12 (? x 4=12)
-------------------------	-----------------------	-------------------------

45 (? x 5=45)	15 (? x 5=15)	10 (? x 5=10)
-------------------------	-------------------------	-------------------------

27 (? x 3=27)	18 (? x 2=18)	18 (? x 3=18)
-------------------------	-------------------------	-------------------------

DISCOVER

SOMETHING INTERESTING ABOUT THE 5X FACTS

Hold your 5x flashcards answer-side down. Put all the cards where 5 is multiplied by an **EVEN** number in one pile. Put the cards where 5 is multiplied by an **ODD** number in another pile.

PUT 5 TIMES AN
EVEN NUMBER
(5×2 , 5×4 , 5×6 , 5×8)
HERE

PUT 5 TIMES AN
ODD NUMBER
(5×1 , 5×3 , 5×5 , 5×7 , 5×9)
HERE

Now look at the answer-side of the flashcards in the **EVEN** pile. Look at the answer-side of the flashcards in the **ODD** pile. What do you notice?

X-Ray Vision

Fold this sheet neatly and evenly in half, with the printed side on the outside. Solve as many of the problems as you can in **90 seconds**. When you are done, hold the folded paper - problem side facing you - up to the light. You will see the correct answers through the paper. **Check your answers!** If you have trouble seeing through the paper, press the two halves of the paper closer together.

42 50 40 12 40 2 42

40 50 32 42 30 50 10

42 32 40 12 32 42 42

2 12 20 50 30 50 32

30 10 52 50 32 40 42

3. Work the Math.

1st 90 Seconds of Math

The next three pages have timed drills. Do these problems with a stop-watch. How many can you get right in 90 seconds? Try to beat your own score on each page.

HOLD UP TO THE LIGHT TO CHECK ANSWERS
